

## As a Computer Vision Scientist

at Mobio Interactive

### You will

- **Provide effective and accessible healthcare to every human**
- Develop algorithms that predict stress, mood and mental health
- Augment existing facial analysis algorithms by sampling from the cheeks, forehead, eye musculature and blood-distribution in the face
- Work directly with MI's founders within a young, energetic, focused and highly motivated team

### You have

- Passion for data-driven excellence
- Unshakable integrity as required to work in healthcare
- Commitment to a transparent idea meritocracy

### Requirements

- Minimum two years experience with computer vision development (in academia and/or industry)
- Experience with facial detection, recognition and analysis is highly desirable
- Strong understanding of mathematics
- Adherence to well documented and maintainable code

### Nice-To-Haves

- Proficiency in C++ and C#

### You will be

- Compensated relative to experience
- Working from anywhere in the world, but must be open to relocating to Singapore

### To apply

- Send letter of interest and CV by email to [mi@mobiointeractive](mailto:mi@mobiointeractive) with the subject header "MI Computer Vision 2020"
