

## As a Unity Developer

at Mobio Interactive

### You will

- **Provide effective and accessible healthcare to every human**
- Develop highly tactile UX/UI for digital therapeutics that provide personalised therapy
- Develop various therapeutic games and activities to combat mental illness in a deeply engaging and effective way
- Work directly with MI's founders within a young, energetic, focused and highly motivated team

### You have

- Passion for data-driven excellence
- Unshakable integrity as required to work in healthcare
- Commitment to a transparent idea meritocracy

### Requirements

- Minimum two years experience with Unity mobile app development
- Strong understanding of object-oriented programming
- Adherence to well documented and maintainable code
- Knowledge of code versioning tools such as Git
- Strong knowledge of C#
- Foundational understanding of APIs

### You will be

- Compensated relative to experience
- Working from anywhere in the world, but must be open to relocating to Singapore

### To apply?

- Send letter of interest and CV by email to [mi@mobiointeractive](mailto:mi@mobiointeractive) with the subject header "MI Unity Dev 2020"
